

### 3<sup>rd</sup> Query Design View

3 Find which computers print to which printers

Computer Table

- \* ComputerID
- SerialNumber
- Manufacturer
- ModelID
- Description

BWPrinter Table

- \* BWPrinterID
- SerialNumber
- Manufacturer
- ModelID
- Description

ColorPrinter Table

- \* CPrinterID
- SerialNumber
- Manufacturer
- ModelID
- Description

Uses BWPrinterID as PK

Uses CPrinterID as PK

Without these Primary Keys we wouldn't obtain the correct Dataset

Allows us to see the Product Name of the Printer
