SAFEKEEPING PROVIDED A TIME SAVINGS OF **369** HOURS PER MONTH!

HOW SAFEKEEPING WORKS

Safekeeping pulls care data directly from the EMR, meaning no additional work for nurses or change to processes.

Family members log into app to see information about their loved one.

Safekeeping is a **consistent communication channel** that delivers the most *relevant information*, to the *right people*, at the *right time*, and in the *right format*.

Via our care dashboard and patient app, you can put more information in the hands of your nurses, giving them more time to focus on patient-centric health outcomes.

According to CMS, 73% of SNFs will be penalized for poor readmittance ratings. Safekeeping can give back time to your nurses to improve health outcomes and increase reimbursements.

Make your EMR data more actionable and visible for all who care for your residents, in a easily consumable, relevant, meaningful way.

- NO additional work. NO change to current processes for care staff
- Eliminates repetitive distractions for nurses & care staff
- Gives families comfort and confidence thru convenient sharing of care info

39% reduction in harms via improved communication between caregivers and families (Patient and Family Centered I-PASS)

BASED ON A USER SURVEY (JANUARY 2019)

90%

USERS FELT MORE INFORMED OF LOVED ONE'S CARE

97%

OF USERS "VERY LIKELY/LIKELY TO CHOOSE A FACILITY USING SAFEKEEPING

85%

USED SAFEKEEPING AT LEAST ONCE/WEEK INSTEAD OF CALLING FACILITY

70%

RATED SAFEKEEPING 8 - 10 (1 - 10 SCALE)

Let us show you the math on how Safekeeping can save you time, money, and increase your staff's efficiency.
